

Aniket Verma

Senior Frontend Developer

Professional Summary

Over 4 years of experience in frontend development, specializing in React.js, Next.js, JavaScript, HTML, CSS, Bootstrap, and Tailwind. Proven expertise in creating interactive, user-friendly web applications and managing complex projects from concept to deployment. As a lead developer on multiple projects, I have successfully built platforms for renting, betting and e-commerce. I excel in collaborating with cross-functional teams to deliver scalable solutions that enhance user engagement and meet business goals.

Work Experience

Senior Frontend Developer

Seraphic Infosolutions Pvt. Ltd.

May 2025 – Present

As a senior frontend developer my responsibilities are to create dynamic, responsive, and user-friendly interfaces using React.js, Next.js, JavaScript, HTML, CSS, Bootstrap, and Tailwind. I take pride in delivering clean, scalable solutions that balance performance, accessibility, and visual appeal.

Collaborating closely with cross-functional teams, I ensure seamless API integration and consistent adherence to design standards that align with business goals. My approach emphasizes code reusability, optimization, and user experience — helping build web applications that are not only efficient but also engaging and intuitive for end users.

Frontend Developer

WEBOAPP DISCOVERY PVT LTD

September 2023 – April 2025

As a frontend developer I honed my skills in React.js, JavaScript, HTML, CSS, Bootstrap, and Tailwind. My work emphasizes building intuitive, responsive user interfaces that enhance user engagement.

I excel at collaborating with cross-functional teams, ensuring seamless API integration, and adhering to design guidelines to meet business objectives. My focus on performance optimization, accessibility, and code reusability aligns with the company's need for scalable, efficient web solutions that maintain a high standard of user experience.

Frontend Developer

Logicease Tecno Solutions

August 2021 – July 2023

I developed expertise in crafting user-friendly interfaces using React.js, HTML, CSS, and JavaScript. I have a strong foundation in building responsive and scalable applications, leveraging frameworks such as Bootstrap and Tailwind to streamline design and ensure cross-browser compatibility.

My focus on clean, maintainable code and performance optimization aligns with company goals to deliver high-quality, seamless user experiences. I collaborate effectively with backend teams, ensuring smooth integration of APIs and maintaining the best UX standards.

Recent Projects

Skor – Safe Rental Platform

skortorent.com | app.skortorent.com

React.js · JavaScript · REST APIs · Responsive Design

A bilingual (ES/EN) rental transparency platform connecting tenants and landlords with verified data and secure workflows. Built the marketing site (skortorent.com) and the full web app (app.skortorent.com) featuring separate tenant and landlord portals, authentication flows, and dynamic dashboards.

ChampsBase – Sports Betting & Casino Guide

champsbase.com

React.js · Next.js · Multi-language (EN/FR/ES/PT) · Tailwind CSS

A global, multi-language sports betting and online casino guide platform. Developed responsive, SEO-optimised pages supporting five locales (EN, FR, PT-BR, ES, PT-PT), with dynamic content rendering, affiliate integrations, and responsible-gaming sections.

CrazyScale Studio – SaaS App

app.crazyscale.studio

React.js · JWT Auth · REST APIs · Bootstrap

A SaaS studio management application (currently in Beta). Implemented the authentication system (login, forgot password, subscription flow), onboarding screens, and core dashboard UI with clean, brand-consistent design.
